MEMORANDUM OF UNDERSTANDING

BETWEEN

**THE INTERNATIONAL CRIMINAL POLICE ORGANIZATION –
INTERPOL**

AND

THE WORLD ORGANISATION FOR ANIMAL HEALTH (OIE)

PREAMBLE

The International Criminal Police Organization – INTERPOL (hereinafter referred to as “INTERPOL”),

And

The World Organisation for Animal Health (hereinafter referred to as the “OIE”),

And hereinafter collectively referred to as the “Parties”,

Considering that INTERPOL is an intergovernmental organization whose aims are: (1) to ensure and promote the widest possible mutual assistance between all criminal police authorities within the limits of the laws existing in the different countries and in the spirit of the “Universal Declaration of Human Rights”; and (2) to establish and develop all institutions likely to contribute effectively to the prevention and suppression of ordinary law crimes,

Recalling that under Article 3 of INTERPOL’s Constitution, it is strictly forbidden for the Organization to undertake any intervention or activities of a political, military, religious or racial character,

Considering that the OIE is an intergovernmental organization whose mandate is to improve animal health, veterinary public health and animal welfare worldwide, and considering that the OIE’s objectives are notably to ensure transparency in the global animal disease situation through disseminating information on animal diseases, including diseases transmissible to humans and the intentional introduction of pathogens, and to provide technical support to its member countries requesting assistance with animal disease control and eradication operations, including diseases transmissible to humans,

Considering that human health and animal health are interdependent and bound to the health of the ecosystems in which they exist according to the “One Health” concept, and the importance of cooperation between law enforcement and veterinary services in order to effectively address threats posed by acts of agro-crime and agro-terrorism, and incidents involving animal or zoonotic pathogens, or biological toxins affecting animals,

Considering that the OIE and INTERPOL wish to establish a framework for long-term cooperation to better support their respective Memberships with regard to threats posed by acts of agro-crime and agro-terrorism, and incidents involving animal or zoonotic pathogens, or biological toxins affecting animals,
